Gender: **M**
Study Date: **31/03/2025**
Referring Doctor: **VERGELEGEN, ER**

DOB: **03/12/1944**
Study Number: **W4280690**

FINAL REPORT

X-RAY RIGHT KNEE

Thank you for referring this patient. Injury.

FINDINGS

Osteopenia. Subtle linear oblique lucency in relation to the lateral tibial condyle and epicondyle without significant displacement or depression. An occult tibial plateau fracture should be excluded. CT may be indicated.

Tricompartment osteoarthritis with marginal osteophytosis. Large joint effusion. Periarticular soft tissue swelling and fat stranding.

Approved: Dr. Scheepers, Shaun
